EMIDS TECHNOLOGIES / KNOWLEDGE BASE

Background Verification & Documentation SOP (HR)

What Emids verifies, through whom, with which timelines — and how to handle findings, gaps and pending documents without surprises.

REF	KB-HR-09
VERSION	V1.6
EFFECTIVE	01 SEP 2025
FOR	HR TEAM ONLY
CLASSIFICATION	CONFIDENTIAL / HR INTERNAL

Emids verifies identity, education, past employment and (for eligible roles) criminal and credit records through the empanelled BGV agency before or shortly after joining. Clients in regulated engagements may require additional checks; those annex to this SOP, they do not replace it.

1. Standard check matrix

Check	Applies to	Source
Identity (Aadhaar / PAN / passport)	All hires	Agency + document check
Education (highest qualification)	All hires	University / agency
Employment (last 3 employers or full history if < 5 yrs)	All hires	Agency employer reports
Address	Client-mandated roles	Agency
Criminal record	Client-mandated + leadership	Court record search
Credit / financial	Finance team, certain client mandates	Bureau report with consent

2. Consent and disclosure

Verification runs only on written consent captured at offer stage. Candidate-declared information mismatched with reports gets a chance to explain (below); undeclared material facts are handled differently from errors.

3. Handling adverse findings

- Amber (small gap, typo-level mismatch): HR confirms the correct fact in writing; corrected record attached — employment proceeds.
- Orange (employer dates, designation inflation, unverifiable education): escalation call to candidate + TA; documented decision by HR head; offer continuation possible for self-made junior-level factual corrections that both parties accept in writing.
- Red (identity fraud, fake employer, forged document, declared-false court record): rescind and blacklist from future consideration; legal consulted if already on-boarded.

4. Pending documents

Onboarding may start with up to two documents pending beyond standard originals (typically lost or out-of-print university records) only with a written undertaking in the onboarding ticket and a deadline; after the deadline without documents, the probation-note records 'BGV incomplete', which gates confirmation per the probation policy.

5. Records

BGV reports, consents and explanations live in the employee file. Access is restricted to HR pod roles; reports are never emailed to hiring managers — the rating (green / amber / red) plus a one-line reason is shared instead.
