Employee Handbook

Start here — who Emids Technologies is, what we value, how your first days ur
where every other policy in this library connects.

REF	KB-E-01
VERSION	V3.0
EFFECTIVE	01 APR 2026
FOR	ALL EMPLOYEES
CLASSIFICATION	INTERNAL / ALL EMPLOYEES

Welcome to Emids Technologies. This handbook is the front door to working at Emids: it explains who we are, what we stand for, and where to find the details for every situation you are likely to meet during your employment. The individual policies it points to are published in the knowledge base; where they overlap, the specific policy prevails over this overview.

1. Who we are

Emids Technologies is a healthcare technology and services company that helps payers, providers and life-science clients reimagine care through data, engineering and operations. Our teams work across delivery centres and client engagements in North America and India. What ties us together is our purpose: enabling better health outcomes by doing our part for the healthcare ecosystem.

2. Our values

- Client outcome first — we measure ourselves by the change we create for the people our healthcare systems ultimately serve.
- Own it like yours — we take end-to-end responsibility for our work and are transparent about progress and problems.
- Grow by growing others — knowledge is shared deliberately: reviews, documentation, mentoring and honest feedback.
- Integrity without exceptions — we do the right thing even when no one is watching, especially in data and compliance.

3. Your first days

Window	What happens	Where to read more
Day 1	Welcome kit, system access, buddy assigned, HR induction session	Offer, Onboarding & Induction (HR internal)
Week 1	Role orientation, project allocation, goal-setting conversation with your manager	Probation & Confirmation (KB-E-14)
First 30 days	Learning track assigned, 30-60-90 goals agreed and recorded	Learning & Development (KB-E-16)
End of probation	Confirmation review based on goals and feedback	Probation & Confirmation (KB-E-14)

4. How to get help

Raise an HR ticket from the HR Desk portal for anything HR-related — payroll, leave, benefits, policy questions or workplace concerns. Tickets route to the right specialist with a defined response time; you can follow up directly in the ticket thread. For time-sensitive emergencies (for example, a medical emergency on site), call your site HR contact listed during induction.

Your day-to-day questions are often answered faster in the knowledge base: use the search on the home dashboard to find any policy. If a document is restricted to HR, you will see that it is not available to you rather than hitting an error.

5. Keeping this handbook current

Policies change as the company and the law change. The knowledge base shows the effective date and version on every document; when a policy changes materially, HR announces it and updates the document here. Printing or forwarding PDFs from this library defeats that purpose — bookmark the search instead.

> Nothing in this handbook creates a contract of employment or alters its terms. Specific arrangements are set out in your offer letter / employment agreement.
