Recruitment & Selection Guidelines (HR)

How hiring works at Emids: requisitions, sourcing, structured interviews, offer, agency and referral program administration.

REF	KB-HR-06
VERSION	V2.8
EFFECTIVE	01 FEB 2026
FOR	HR TEAM ONLY
CLASSIFICATION	CONFIDENTIAL / HR INTERNAL

This guideline covers hiring at Emids Technologies from requisition to offer acceptance. It standardises how we evaluate so that hiring outcomes stay explainable, consistent with the equal-opportunity policy, and defensible.

1. Getting a requisition approved

- Requisitions are raised in the ATS with headcount, budget, JD and management sign-off before sourcing begins.
- Contract roles carry engagement caps and require the same JD and evaluation standards.
- Internal-first check: every req is posted internally at least 5 working days unless the role is a confidential replacement.

2. Evaluation standard

Stage	Panel / Owner	Expected
Screen	TA	Fit-vs-JD, compensation band, availability
Technical round(s)	Two and only two interviewers across rounds	Structured scorecard, no interview-jumping between rounds
Value / culture round	HR + one cross-functional interviewer	Behaviours, not generalities — cited incidents
Manager close	Hiring manager	Debrief, ranking against standards, keep warm list

3. Offer and approvals

- Offers within band: hiring manager approves. Above band: compensation committee (HR + finance + business head).
- Joining dates beyond 45 days of offer release require TA head approval (pipeline hygiene).
- Any negotiation beyond one explicit revision is a committee topic, not a recruiter's private commitment.

4. Referrals and agencies

Referral bonuses pay at the referred employee's 6-month milestone and split (half at 90 days for leadership roles). Agencies come in only through empanelment: fee, replacement window, invoice mechanics fixed before a CV is accepted. CV sourcing fraud — ghost submissions — voids the incentive and the engagement.

5. Data and confidentiality

Candidate data lives in the ATS, retention follows the data-protection annex; interview recordings and notes are never shared with candidates. Rejected-candidate feedback is shared within 5 working days on request (India candidates).
